

UNIQUE LIGHT BULB – DUV35

Labino's unique interface technology creates unbeatable output performance. The combination of the Labino UV light bulb – DUV35 and the Labino Trigger Ballast makes the unit the most powerful.

The Labino UV light bulb, DUV35, is originally manufactured by Philips. The Bulb Labino offer is however specially designed by Labino, with a much greater quality than the regular bulb as a result.

The great effects of the Labino design are

- Longer burning time, approximately 2000 hours (see diagram page 2)
- Smoother light beam
- No flickering light beam

Spectral radiant flux

- Emitted radiation >250 nm
- Nature of radiation CIE values
- UVA 315-400 nm 4,5W
- UVB 280-315 nm 0,45W
- UVC 250-280 nm 0,041W

Lamp bulb

- Lamp type: 35W
- Luminous flux: 1200 Lm
- Luminous efficacy: 35Lm/W
- Colour temperature: 20 000 K
- Operating position: Operating position +/- 10°
- Electronic ballast: Labino Trigger ballast only
- Characteristic service life: 2000 hours (diagram page 2)

Automotive ballast can not be used.
